        Sarah         is one of the characters in the book called Sarah's Secret Plan.

He/ She was diligent, clever and kind. But she was impatient  
sometimes. She had small eyes, long and curly hair and she always smiled.  
She lived with her father, mother and a little dog.

        She loved and enjoyed learning . She could read books  
independently and went to school.

        Sarah waited for her father impatiently to go to school. Her  
father was a bit late so she was late to go to school. She made the clocks  
in her parent's bedroom, bathroom, kitchen and the living room always  
flash at 12:00, so that she could go to school on time and would not be late  
anymore.

I like/ do not like         Sarah         because         she was clever.  
She made the clock always flash at 12:00 to remind herself not to be late.

From this story, I have learnt that if you like learning, you will  
use all the ways to remind you.

I will learn to use the clock to remind me to do something.
