Book Title: Lost in the jungle

The story is about the children's magic adventure. On their mum's
birthday, Biff gave her mother a plant. Her Mum was surprised and
pleased, then the children started their wonderful adventure. It took them to
a jungle full of plants. When they were scared, they met a man and a
woman who had lost in the jungle for a long time. The couple told them that
they were looking for the lost city. Finally, they found it. They were very
excited.

I like the story very much because it is exciting. The picture is
attractive and funny too.

I learn that I should not give up and I must be hardworking. At last,
my dream will come true.
