Book Report

Title of the book: **Steven Spielberg**

This book report is about a director called Steven Spielberg.

Steven was born in Ohio in 1946. He saw the first movie when he was six years old. He was making his own movies. His family and friends were actors. He won a prize for a movie when he was thirteen years old. His movies were shown in a real theatre when he was sixteen years old. Steven has been a film director for twenty years.

At first, he made the first movie, Duel. Many people loved that movie. He also made E.T., Jaws and Jurassic Park.

I think Steven Spielberg is amazing because he was the youngest person to be a director and made a lot of famous movies. Other people should read this book because he is a famous director who produces good movies and he is creative.
