

4A Lee Hoi Him, Harris (14)

3rd prize

If I need to live on an island by myself, I will bring three things with me. They are a hat, a dictionary and a jacket.

First, I will bring a jacket because I will use it to climb on the trees and take the fruit down. I will use it at night too. It is very cold at night. I may wear it to keep myself warm.

Next, I will bring a hat because I will use it to catch some fish. I may put the fish inside the hat too.

At last, I will bring a dictionary. I can sleep on it because it is small like a pillow. I can also use the paper to make fire. But I don't want to live on the island by myself because it will be scary at night.
