Book Report

Eric Hinkle is one of the characters in the book called “The Secrets of Droon—The Hidden Stairs and the Magic Carpet”.

He was brave, outgoing, curious and responsible. He was tall and thin. He had a pair of big glasses and a big nose. He lived with her mother.

He loved playing with his friends Neal and Julie. He could do housework.

One morning, he thought that he could play with his friends but his mum asked him to clean the basement. In there, Eric and his friends were playing together happily when they accidentally found out there was an enormous land of mysteries which was called Droon the closet door. They had begun their adventure right there.

They met Keeah the princess and Max the spider on their way. But there was an evil lord called Lord Sparr. He sent Keeah into a prison. Luckily, Eric and his friends, and also Max went to save her and got away from Lord Sparr. Finally, Eric, Neal and Julie left Droon excitedly and waiting for the next time to got to Droon –just when they dreamt about Droon.

Eric is one of the characters whom I appreciate. I like him because he was brave. He never gave up even when he faced problems.
